CASH & CARRY TROLLEY
NESTABLE, WITH WIRE PLATFORM

COD. 02.03.000.52
CASH & CARRY TROLLEY WITH WIRE PLATFORM
External dimensions mm1340x750x1010h.

These all-purpose trolleys can be used by wholesalers as a Cash & Carry trolley, in warehouses, and in industry. The trolleys have a strong steel frame and a wire platform (mm1130x675), with a wire border to prevent goods from slipping. The tubular plastic handle can take an advertising insert on request. The two ball-bearings mounted in each wheel (ø170x50) and the elastic rubber of the tyres guarantee minimum friction and silent running.

1/2 MODULO CONTAINER
FOLDABLE AND STACKABLE CONTAINER

COD. 05.07.000.00
1/2 MODULO CONTAINER

This 1/2 modulo display container is ideal for rapid stock rotation. Its half pallet format allows optimum use of storage space during transport and in the sales area. It can be handled from all sides by a fork lift or pallet truck. Two fold-down gates allow easy access to the goods.
**FOLDABLE**

The foldable CARGOPAK design allows the unit to be folded to one quarter its original size and stacked in lots of 20, thus saving space when not in use.

**Close-up of side panel with semi-automatic locking mechanism.**

**COD. 05.70.000.11**

**ACCESSORIES:** WHEELS Ø106X40 (2 FIXED, 2 SWIVEL) - PRICE HOLDER
PALLE CAGE  P 8 - P 8/2 - P 10
STACKABLE AND FOLDABLE PALLE CAGES

These pallet cages convert pallets into containers that stop goods from slipping during transportation and can be stacked. They are also foldable to save space when not in use.

Each one is fitted with a fold-down section at the front and four clips to secure the cage to the pallet.
FOLDABLE SYSTEM
The foldable CARGOPAK system means the cages can be easily stored and shipped. 25 folded P8 have a volume of 2000x900x1500h

STACKABLE
The pallet cages are stackable 4-high when stored and 2-high when transporting. Mounted on a standardised pallet (mm800x1200 or mm1000x1200) they are also stackable on other similar pallet cages.

CONTAINER P 1000 - P 1200
FOLDABLE AND STACKABLE CONTAINERS

CARGOPAK containers are the ideal solution for all industrial sectors. Designed for easy handling during loading, transporting and unloading, they accompany the products throughout the manufacturing process (both within the plant and with third parties), as well as during transport and storage. When not in use, they can be folded to one quarter their original size and their stackability allows maximum use of vertical space. The front of each container is fitted with a fold-down section for easy picking of goods.
FOLDABLE
The foldable CARGOPAK design allows the unit to be folded to one quarter its original size and stacked in lots of 20, thus saving space when not in use.

P 1000 CONTAINERS used in the plastic industry.

ROLLPAK BIG VOLUME
STACKABLE CONTAINER ON WHEELS

The stackable and foldable container on wheels: Rollpak big volume. Composed by the base in wood, assembled on the structure in iron tube, 3 sidewalls. One of the sidewalls is hinged to the back wall which allows to turn 270°. Raising the base making the L-form, you can earn some space nesting another Rollpak inside.

Load capacity Kg. 800
Stackable Kg. 400 + 400
Stacked Rollpak Big Volume for using the high space. Load capacity Kg. 400 stackable 1 on 1.

Particular: the raised base and the wall folded to 270°, which allows to occupy less space when the Rollpak Big Volume are nested.

Rollpak Big Volume with lever.
